

**Dr. Jeffrey C. Reid** - Dr. Reid owns ForensicGeology, Inc., a mineral consultancy specializing in ore mineralogy, petrography, and process mineralogy. A complete publication list is available upon request. Contact Dr. Reid by telephone at 919.618.0810, or by email at [rksrus@aol.com](mailto:rksrus@aol.com).

Reid is a licensed professional geologist in NC, SC, TN and TX with geology degrees from the University of Minnesota, Duluth (BA); The University of Texas at Austin (MA); and The University of Georgia, Athens (PhD). He is an AIPG Certified Professional Geologist, and Adjunct Associate Professor and member of the graduate faculty, North Carolina State University.

He has published 200+ articles and abstracts on energy, mineral resources, geochemistry, geological hazards, as well as numerous consulting reports. Mineral consulting projects have been in all continents except for Antarctica.

By day, Reid is a Sr. Geologist for Energy and Mineral Resources with the North Carolina Geological Survey (NCGS) and the lead scientist for the State's Mesozoic basins' natural gas study. He is the lead author on all state natural gas reports including USGS Open-File Report 2008-1108 on organic chemistry source rocks in the North Carolina Mesozoic basins. He is the principle geologist for economic and geochemistry projects for the NCGS.

Previously he worked at Arco Oil and Gas, and for various mineral exploration companies throughout the United States, and portions of Brazil and Canada.

Reid is a Fellow of the Geological Society of America. He is a member of the American Association of Petroleum Geologists, Society for Mining, Metallurgy & Exploration, and the Carolina Geological Society.

Detailed job responsibilities, knowleges, skills and abilities (KSA's), and professional society leadership roles are available upon request.
